About Me

- Computer Science Engineering student with hands-on experience in Python, Java, SQL, Machine Learning, and data-driven application development. Experienced in building software projects, working with APIs and databases, analyzing business processes using Celonis, and developing analytical solutions. Strong problem-solving, learning, and teamwork skills with an interest in building practical technology solutions.

Education

Degree	Institute	Score	Year
B.Tech (CSE)	Walchand Institute Of Technology	9.02 CGPA	2023-2027
HSC	Sadashivrao Mane Vidyalaya, Akluj	63.33%	2023

Experience

- ApexPlanet Software Pvt. Ltd.** Mar 2026 – May 2026
Data Analytics Intern Remote
Performed data cleaning, exploratory analysis, business reporting, dashboard development, and KPI analysis using Python, SQL, Excel, and Power BI to generate actionable insights.
- Cognifyz Technologies** Dec 2025 – Jan 2026
Data Analysis Intern Remote
Analyzed business datasets using Python and SQL, prepared visual reports, and supported KPI tracking to identify trends and communicate data-driven insights.

Projects

- AI Palmistry & Tarot Intelligence Platform** 2026
Self Project
–Developed a web-based platform using **Python, FastAPI, React.js, databases, and Machine Learning** for palmistry and tarot analysis.
–Integrated **Computer Vision** and image processing techniques to analyze palm images and extract relevant features.
–Designed **backend APIs** and database workflows to process user inputs and generate structured results.
- Business Process Analysis and Optimization using Celonis** 2026
Self Project
–Utilized the **Celonis Process Intelligence Platform** to analyze end-to-end business workflows and process performance.
–Applied **Process Query Language (PQL)** and event log analysis to identify bottlenecks, process deviations, and improvement opportunities.
–Developed **KPI dashboards** to monitor throughput and cycle times and generated recommendations for process optimization.
- End-to-End Business Intelligence and Data Analytics Portfolio** 2025
Self Project
–Cleaned, transformed, and analyzed datasets using **Python, Pandas, SQL, and Excel**.
–Performed **Exploratory Data Analysis (EDA)** to identify trends, patterns, and business insights.
–Built **KPI dashboards and visualizations using Power BI** and Excel to communicate analytical findings.

Skills

Tech Skills	Python, Java, SQL, Machine Learning, HTML, CSS, JavaScript
Libraries / Frameworks	Pandas, NumPy, Matplotlib, Scikit-learn, FastAPI, React.js
Tools & Platforms	Git, GitHub, Excel, Power BI, Celonis, MongoDB, PostgreSQL
Professional Skills	Problem Solving, Analytical Thinking, Time Management, Teamwork

Certifications

- Software Engineering Job Simulation – JPMorgan Chase & Co.
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Oracle Data Platform 2025 Certified Foundations Associate
- Process Mining - From Theory to Execution – Celonis Academy
